**JUMP, SCREAM AND SHOUT**

Yeah now

I read your letter, I know how it goes

That nobody cares, yet nobody knows

I hope you feel better, Baby just try

Wherever you go, I'll be right by your side

It tears me apart, you living this way

Go straight to my heart, allow me to say

Hey, hey, hey

Jump and scream and shout, don't run away

Don't go and hide inside

Just let it out

I know what you feeling, so pick up the phone

Hello

It's your time for healing, you're not alone

Whoo hoo hoo

You living a lie, and losing control

Losing control

You wanting to die, is taking its toll

Jump and scream and shout, don't run away

Don't go and hide inside

Just let it out

Jump and scream and shout

I'm talking bout

Baby hear me out

Jump and scream and shout

And let it out

I said jump

Ha yeah

Jump and scream and shout

Don't run away

Don't go and hide inside

Just let it out

Jump and scream and shout

(I'm talking bout)

Jump and scream and shout

And let it out

**I WANT YOU NOW**

Aaaah

Aaaah

I'd give you everything, for one night with you

Like a diamond ring, I know it shines true

I'm so in love with you, but absence turns to pain

Why are you so far away, when the sun turns to rain

I know somehow, we'll find a way

Mmm

There ain't no doubt, we here to stay

Don't you know that

I want you now in my life

Yeah

I want you now in my life

I want you now

I want you now

I want you now

All those times I was lonely, I would think of you

I just need you to hold me, cause I'm broken in too two

Gonna dance with my baby, no matter what they say

I'll never listen

You're driving me crazy, let's rock the night away

I know somehow, we'll find a way

(Find a way)

There ain't no doubt, we here to stay

(Here to stay)

**WHOSE IT**

I've, I've got to know something

That you, you love me

I, I wanna show you something

How, how I feel oh yeah

Girl don't you see, my heart goes boom boom boom

When you do it to me

But now it's over

You said that we were forever

Now it's said and done

Whose it got to be, my one and only

Whose it got to be, you or me

Whose it got to be, the one that's lonely

Who's it got to be, boom boom boom

You, you make me go crazy, send shivers down my spine

When you say no, no my love seemed hazy

I won't stop until you're mine, oh mine

Girl don't you see, my heart goes boom boom boom

When you do it to me

But now that its over

You said that were together, you're the only one

Whose it got to be, my one and only

Whose it got to be, you or me

So whose it got to be, the one that's lonely

Whose it got to be, (who's it) boom boom boom

Whose it got to be my loving lover

Is it you or me

So whose it got to be, the one that's lonely

Whose it got to be, (who's it) boom boom boom

Oh oh oh

Ah ah ah

Oh oh oh

Ah ah ah

Baby tonight yeah yeah yeah

Girl don't you see, no no my heart goes boom boom boom

When you do it to me

but now it's over

You said that we're together, now it's said and done

**DO YOU, DO YOU, I DO ***

I hear the sounds, smell it in the air
It's lonesome summer Sunday
Let's take off with out saying goodbye
And come back someday
Will you cut the rope that ties you down

I've got tickets we could leave tonight
On a slow boat to somewhere
Made arrangements at the local church
Heaven awaits there

Now the pressures on and the red lights strong
And All the world and eye is watching you

Do you, Do you, l do
Do you, Do you, I do
Do you, Do you, I do

This love is like an endless film
That we were making
You wore white on our wedding night

But Don't keep me waiting
Will the hero get you in the end or will I lose
It depends on you

Do you, Do you, l do
Do you, Do you, I do
Do you, Do you, I do
Do you, Do you, l do

Do you, Do you, I do
Do you, Do you, I do
Do you, Do you, l do
Do you, Do you, I do

Do you, Do you, I do
Do you, Do you, l do
Do you, Do you, I do
Do you, Do you, I do

**CURIOUS HEARTS**

Curious hearts has Nine lives
If love breaks four
You still have five
When the cats away
The mistro jives
Jives
Jives
Jives

Talk about rhythm
Talk of a crazy sound
You know when I'm with her
She's the best kind of dance beat around

You got to know about the strong will survive

Curious hearts has nine lives
If love breaks four
You still have five
When the cats away
The mistro jives
Dance your life away

Lucky stars are in your eyes
Better shine up my shoes
The biggest day of my life
I hope will come true

Understand there's a chance that might fall through

Curious hearts has nine lives
If love breaks four
You still have five
When the cats away
The mistro jives
Dance your life away

When the cat is out
The mistro shouts
Dance your life away
I better shine up my shoes

Da da da da da da da
Da da da da da
Da da da da da da da
Da da da da da

Oh let me go
cause  I can't work or eat or sleep
And all I know I've seen her
In everyone I meet

Curious hearts has nine lives
If love breaks four
You still have five
When the cats away
The mistro jives
Dance your life away

Curious hearts has nine lives
If love breaks four
You still have five
When the cats away
The mistro jives

Da da da da da da
Da da da da di da da
Da da da da da da
Da da da da di da da
Da da da da da da
Da da da da da da da

**AIN'T NO WAY**

Jackie, our love is on the rocks
Makes my heart feel like it stopped, now you're gone

Send me a dozen love me nots
It's heaven sent it's not forgot, with you

Ain't no way we're turning back

Somebody set it straight
What we've lost, we've  had to wait, a long time for

That is like somebody, like you, who walked in my life
and start a new

Ain't no way we're turning back
Ain't no way we're turning back

There ain't no doubt about it
There ain't no world without it

Ain't no way we're turning back

Yeah, Jackie, our love is on the rocks
My heart felt like it stopped, now you're gone
Send me a dozen love me nots
It's heaven sent it's not forgot, with you

There Ain't no way we're turning back
There Ain't no way we're turning back

There ain't no doubt about it
There ain't no world without it
Ain't no way we're turning back

**IF I ONLY**

The room is full with your scent
Push through the crowds that haven't left (Excuse me)
Saying words I never meant to say
If I only could of left the bar before I spoke with you

If I only told you how much I really cared
If I only

Now it never seems to fail
I'm buying things before a sale
Then I left you in the cold and then I wondered how you were
If I only didn't wash the car before the pouring rain

And If I only told you how much I really cared
If I only, If I only

If I only tried to hold you but  much I really scared
If I only

Why is it when I shut my eyes,  why is it when I shut my eyes
I still remember what you're like, I still remember what you're like

Empty frames are never, on the wall

If I'd only would of washed the scars before they ever stained

If I only told you how much I really cared
If I only, If I only

If I only tried to hold but I was really scared
If I only, Only

If I only tried to tell you, how much I really cared
If I only, If I only

If I only tried to hold but I was never there

If I only

If I only would of told you what was on my mind
But when you get down to it words are impossible to find
Coincidence maybe but you and I will cry, tonight

## OCEAN SEA

Ocean sea, won't you carry me
To your shore of white

Whole heartedly, will you marry me
And I'll be yours tonight

And then they can't say
That the sun is in our eyes and
Gods fate, make a little child's mate
This is the beginning of the living end

Ocean sea, won't you carry me
To your shore of white
Whole heartedly, will you marry me
And I'll be yours tonight
oh...

Will you marry me?

## LOVE IS ALL I GOT FOR YOU

Someone's home
As I wait on the end of the telephone
I'm alone, don't wanna wait no more

And the sun will not shine
If you keep it locked inside
And my love will fade away and die

Oh darling please don't say
That you gave my heart away
What will be the price I pay

When love is all I've got for you
Love is all I've got for you
Love is all I've got

And here we are
And I don't have the cash or a red sports car
But here I stand, I stand not alone
And the sun will shine, for what I feel is right
Is it wrong to be in love and broke

Oh darling please don't say
That you gave my heart away
What will be the price I pay

When love is all I've got for you
Love is all I've got for you
Love is all I've got

Aah aah aah aah

Love is all I've got for you
Love is all I've got for you
Love is all I've got for you

Love is all I've got for you
Love is all I've got for you
Love is all I've got for for for you

**CHINA GIRL***

One by one she reads

her lines

snaps her fingers in time

One word you know her accents strong

It's hard for her to say she's wrong, or right

Won't you stay with me tonight

Don't want to spend another sleepless night

You really got that hold on me

So close your eyes and let's all believe

China Girl in China Town

China Girl

Men don't work when you walk by Their convinced your’e a foreign spy

So I'll put you in a hide away

And Save you for a rainy day

China Girl in China Town

China Girl she's sure to turn you upside down

China Girl what more can I say

China Girl

China Girl in China Town

China Girl she's sure to turn you upside down

China Girl what more can I say

You mean more than anything to me

More than anything to me

China Girl

China Girl

China Girl

China Girl

China Girl

China Girl

**MY DESCRIPTION OF YOU ***

The boys were making a living in the alley way
Cold as ice it hits me when your gone

And if I knew
Your point of view
Could I be like you

I've been a sleeping on the floor, you know
And all the time I was straight to the point
Cold as ice it hits me
Cold as ice it hits me

My description of you
My description of you, you
My description of you
Science fiction come true

My mind is crazed but what else can I do
I've got your pictures like a postcard ripped in two

I've got a subscription
I've got a subscription
And a prescription for you

Ain't no ball and chains won't stop me
It's gonna make the news
And If I knew, what page to turn to
Could of looked like you

My description of you

My description of you, you
My description of you
Science fiction come true, true

My description of you
My description of you, you
My description of you, yeah
Science fiction come true, true

My description of you
My description
My description
My description
Science fiction come true, true
True, true, true, true

**IT'S THE WAVE***

Sensations coming over me
It's not hard when you can see
Get off the back road
Your ties are straight and narrow
Why wont you live babe in tomorrow

I don't want to be, want to be
I don't want to be, for all my life
I don't want to be, inside me
A prisoner in 65

You fancy colors are way behind
Forgot the future went back in time
They'll give it to you girl
But you take so much
How can you call that music stuff

I don't want to be, want to be
I don't want to be, for all my life
Cause I don't want to be, inside me
A prisoner in 65

It's the wave and I wave goodbye
You're talking about it

It's the wave
It's the wave
It's the wave

It's the wave
It's the wave
It's the wave
It's the wave
It's the wave

I don't want to be, want to be
I don't want to be, for all my life
Cause I, I don't want to be, inside me
That prisoner in 65

I don't want to be, want to be
I don't want to be, for all my life, no
Cause I, I don't want to be, inside me
That prisoner that stays alive

It's the wave
It's the wave, no
Well it's the wave babe

No you're not alone babe
It's what you got
Don't talk about the wave babe

The wave
The wave
The wave
The wave

What you got
Don't talk about the wave. baby baby
What you got
Got to get some wave babe
Gonna give it to you babe
What you got
Give me to you
Gonna give it to you babe
The wave

**MEMORY BANKS***

You're in my memory banks
Oh how I see your face
You give more than a fuel tank
in a guided, missile race

With Monroe on ice, I compare your legs and eyes, oh
I need you - I need you

Cause when you're close, my needle rose to danger
But You should know which way to go with strangers now

You're in my memory banks
You're in my memory banks
You're in my memory banks

It's hard to stay alive when you drive a shark one five
You love them but hate them too
Yeah you gotta keep scanning through

I know it's messed around
It's all behind you now, oh
I need you, I need you, I need you

When you're close, my needle rose to danger
But You should know which way to go with strangers now

You're in my memory banks
You're in my memory banks
You're in my memory banks

You're in my memory banks
You're in my memory banks
You're in my memory banks
